

STRIPING TAPE

1. Cut or peel off length of tape longer than the nail you are working on, place into tacky nail polish.
2. Using nippers(DO NOT CUT TAPE WITH SCISSORS) cut off excess from back edge of nail and press edge into polish.
3. Cut off excess from free edge of nail aprox. 1/16" in from edge, using point of nippers press end into polish.
4. Repeat steps 1,2 and 3 until desired effect is complete.
5. Coat entire nail LIGHTLY with top coat. Apply a second coat if necessary. (applying top coat thickly will cause lifting)

LASER STRANDS

1. PRECUT Laser Strands to desired length.
2. Using moistened manicure stick, pick up strand and place into WET nail polish.
3. Repeat steps 1&2 until desired design is complete.
4. Cover entire nail with top coat to seal. (DO NOT LAY STRANDS OVER NAIL AND CUT OFF EXCESS, DOING SO WILL CAUSE LIFTING)

LASER LACE

1. Cut Laser Lace to desired shape
2. On a tacky nail place Laser Lace on one side of nail, using orangewood stick pat Laser Lace down going from side to side across nail.
3. Add additional nail art items if desired.
4. Coat entire nail lightly with top coat to seal.
